***COLE* Technology Corporation Awarded SeaPort Enhanced Prime Contract**

Fort Worth, TX – May 30, 2008 - *COLE* Technology Corporation (*COLE*) has received a prime contract award under the SeaPort Enhanced Rolling Admissions process. SeaPort Enhanced (SeaPort-e) provides a platform for awarding and managing performance-based task orders. The Multiple Award Contracts (MACs) encompass all aspects of professional support services. For more information, visit www.seaport.navy.mil/home/index.html.

In order to better utilize the Seaport-e portal, *COLE* has established a Prime/Subcontractor relationship with two small business partners; Gettysburg Integration Solutions, LLC (GIS) and NDU Systems, Inc. (NDU). With this award, *COLE*, GIS, and NDU will combine their past performance, depth of experience, and commitment to excellence in order to pursue Task Orders issued under SeaPort-e.

COLE Technology Corporation, along with GIS and NDU, submitted their response to the Seaport-e solicitation on March 27, 2008. The *COLE* Team applied for four of the seven zones: Zone 1 – Northeast, Zone 2 – National Capitol, Zone – 4 Gulf Coast, and Zone 5 – Mid West. With all zones accepted, *COLE* will be able to further establish a strong presence as a national company.
